SPRING MUSHROOM FORAY

Learn about mushrooms of the Robson Valley - Saturday, June 2, 2001. Mushrooms are diverse and mysterious. Some are delicious and nutritious; others are dangerous and poisonous. Some make trees grow; others sicken or kill them. Some people find mushrooms beautiful and enticing; others find them ugly and repulsive. *Whether mushrooms are your passion or you are just a little curious about them, join us for a wonderful day exploring their ecology and diversity. *Leaders for the day include mushroom experts from the Ministry of Forests, Canadian Forest Services, and private consultants.

*Introduction to mushrooms - 10:00 - 12:00 - Dunster Hall
This morning session will include presentations describing the diversity of mushroom and fungi. Colour slides of mushrooms will illustrate the presentations. Mushrooms collected from the Robson Valley will also be identified and on display. Learn the basics of mushroom identification! - Mushroom Walk - 1:30 - 3:30 - Leave from Dunster Hall *Join mushroom experts for a forest walk. Spot mushrooms in the woods and learn about their identity and ecology. Come prepared for all kinds of weather. The walk will be of moderate difficulty. You may require your own transportation, though we will car pool from the hall. For more information contact Shannon Berch: 250-952-4122.

DID YOU KNOW...

In English Pubs, ale is ordered by pints and quarts. So in England, when customers got unruly, the bartender would yell at them to mind their own pints and quarts and settle down. It's where we get the phrase "mind your P's and Q's".
