### SOMETHING TO SHARE

The Red Planet is about to be spectacular! This month and next, Earth is catching up with Mars in an encounter that will culminate in the closest approach between the two planets in recorded history. The next time Mars may come this close is in 2287. Due to the way Jupiter's gravity tugs on Mars and perturbs its orbit, astronomers can only be certain that Mars has not come this close to Earth in the last 5,000 years, but it may be as long as 60,000 years before it happens again.

The encounter will culminate on August 27th when Mars comes to within 34,649,589 miles of Earth and will be (next to the moon) the brightest object in the night sky. It will attain a magnitude of -2.9 and will appear 25.11 arc seconds wide at a modest 75-power magnification.

Mars will look as large as the full moon to the naked eye. Mars will be easy to spot. At the beginning of August it will rise in the East at 10p.m. and reach its azimuth at about 3 a.m.

By the end of August when the two planets are closest, Mars will rise at nightfall and reach its highest point in the sky at 12:30 a.m. That's pretty convenient to see something that no human being has seen in recorded history. So mark your calendar at the beginning of August to see Mars grow progressively brighter and brighter throughout the month. Share this with your children and grandchildren. NO ONE ALIVE TODAY WILL EVER SEE THIS AGAIN!

**SUMMER FUN PROGRAM**

**McBride & District Public Library** - We're Back - Summer Fun Program. Although this year the library has not received funds from HRDC for the Summer Fun Program, it has become such an important part of a child's summer that the library has come up with their own funding for this year's program. This Summer Fun Program is going to top them all, because we are joining forces with the Gallery and will also be coordinating some days filled with fun with the Stepping Stones Daycare. The Summer Fun Program participants can range from toddlers to teens with a variety of activities for each age group. Each week has its own special theme that corresponds hand in hand with the Stepping Stones Daycare themes. Our first week is "Friends and Family", and during this week the children will be able to make new friends and join in the camaraderie of others. Week two is "Space Week" here the children will dive into an epic adventure of our solar system. The third week is "Nature Week" where we will be able to appreciate the simple settings of our surroundings. Week four is "Rock Week" and we will learn that the simplest things can be turned into a work of art. The fifth week will have the children jumping with excitement, because this week is all about sports. Week six is our "Drama/Music Week" where the children will be performing their hearts out in the "Battle of the Air Bands". The seventh week is "Animal Week" where the children will be using feathers, fur and fins to create the craziest creatures of their imagination. Week eight is our "Book Week" where our very own Martina Kelley will teach the children scrap booking techniques. Our last and final week will be wrapping up everything that the Summer Fun Program had to offer. We hope that you will join us on July 6, 2005 for a ton of fun at the Summer Fun Program.
