# MGBRIDE HOCKEYVILLE NEWS

submitted by the 50 Kratt Hockeyville Parvaille Show on the show!!! The entire community is invited to the High School to watch the show and celebrate together as we try to move into the top 25. The one-hour episode of the Kraft Hockeyville Show on CBC will be shown starting at 6:30PM in the gymnasium on the BIG screen. We are showing this episode early because there is a Roundhouse Theatre event in the Auditorium. \*Come see the videos submitted by the other communities. \*Come see if McBride is selected to the next round by the judges or whether we will be in the cross Canada voting process. \*Come and get instructions on how to vote. \*Come and learn about additional Hockeyville events. No time to cook...don't bother! The Girl Guides will be selling chili and buns at the school starting at 6:00PM. Come out and support our Guides. In preparation for the next round we will be filming this Hockeyville event, so put on your BLUE and let's show Canada why we are HOCKEYVILLE 2006. McBride Is Blue till The Gold Shines Through. Voting methods: On-line: at www.cbc.ca/hockeyville or by phone by dialing 1-888-HKY-2006 or by text message: by texting VOTE to 111222. Voting begins after the show on Wednesday and continues until 11:59PM April 21.

## DID YOU KNOW ...

as 1854, but yellow were sold as early as 1854, but yellow didn't become the predominant color for pencils until around 1890. It was at that time that the L&C Hardtmuth Company of Austria introduced a pencil of such high quality that it became the standard for others to follow. The pencil was named Koh-I-Noor after the famous Indian diamond, and it was painted golden yellow, supposedly because, with its black lead, that made it the color of the Austro-Hungarian flag. This pencil, which was advertised as "the original yellow pencil," was such a huge success that it established yellow as the symbol of quality in pencils. Other pencil manufacturers soon began painting their pencils yellow, and today three out of four pencils sold are that color.

# MGBRIDE HEALTH UNIT

Before digging in, make sure you are protected. Dirt provides the perfect environment for germs to live. Any open cut or wound exposed to dirt puts you at risk for contracting tetanus. Tetanus is also known as lockjaw. \*How long has it been since you were vaccinated? A decade or more? Did you know it is recommended that adults receive a booster dose of tetanus and diphtheria every 10 years? \*These two diseases are part of routine childhood immunizations given at 2, 4, 6, and 18 months of age, in kindergarten, and grade 9. For continued protection it is important to get vaccinated every 10 years throughout your adult life. \*As with any vaccine, mild reactions are possible. These may include mild fatigue, sore arm, redness, swelling and discomfort at the site.

The Public Health component of the Northern Health Authority provides information, resources and other tools to help build healthier communities. This vaccine is provided free at your local health unit. For more information or to schedule an appointment please contact the Northern Interior Health Unit at 569-2251 ext. 226.

Celebrate National Immunization Week, April 23-29.
