PSYCHOLOGY 101

It doesn't hurt to take a hard look at yourself from time to time and this should help to get you started. During a visit to the mental hospital, a visitor asked the Director what the criterion was which defined whether or not a patient should be institutionalised. "Well," said the Director, "we fill up a bathtub, and then we offer a teaspoon, a teacup and a bucket to the patient and ask him or her to empty the bathtub." "Oh, I understand," said the visitor. "A normal person would use the bucket because it's bigger than the spoon or the teacup."

"No," said the Director, "A normal person would pull the plug. Do you want a bed near the window?"
