DOX SINFILL

Dear Editor, As manager of the McBride Grizzlies Bantam Team I wish to wind up the 2007/08 season with some words of thanks. Thanks to McBride Minor Hockey and the entire executive. Some people think that hockey is just there for our kids but it takes the sacrificial dedication of a dedicated bunch of parents to make it happen, be it concession responsibilities, jerseys, managerial duties, banking and accounting, countless things that generally go unnoticed. Where do the referees and time-keepers come from? They're always there but does anyone think of how they got there? It requires hours of planning and phoning and arranging to make it happen, even for one game. The people who make it happen are called volunteers and do all this on their own time and their own dime. We all owe them a simple thank-you because that's why we do it. We love our kids and we love our community. Next I want to thank the coaches for their sacrifice and dedication to minor hockey because without them there would be no team. They are all working people and many times it is a rush to get home and to the arena in time for practice, sometimes without even eating supper. Hey, when was the last week-end they enjoyed without hockey? Managers, of which I'm one, also give their all for the cause to arrange tournaments, book away tournaments, and also all the hotel arrangements for the whole team. Without the sacrifice and dedication of all these people there would be no minor hockey. Last but not least, it's all about the players, our children, and how we help to enrich their lives. They're who we do it for and we thank them all for giving us the joy that we ultimately feel when we are. They are ambassadors for our communities and will ultimately learn what that means in their progression in the journey of life. We also owe a debt of thanks to those faithful arena staff personnel who are there for us all, be it making good ice, skate sharpening, cleaning up our messes, or just being super hosts in keeping our arenas running all winter long and
