## A FEW BRIGGS...

Calling the telecommunication company to inform them my phone didn't work and that when I picked up the receiver it's completely dead, the technician said from the other end "Are you calling from the number of the phone that does not work?"

I was signing the receipt for my credit card purchase when the clerk noticed that I had never signed my name on the back of the credit card. She informed me that she could not complete the transaction unless the card was signed. When I asked why, she explained that it was necessary to compare the signature on the credit card with the signature I just signed on the receipt. So I signed the credit card in front of her. She carefully compared that signature to the one I signed on the receipt. As luck would have it, they matched.

I live in a semi-rural area. We recently had a new neighbor call the local township administrative office to request the removal of the Deer Crossing sign on our road. The reason: Many deer were being hit by cars and he no longer wanted them to cross there.

### ...SHORT OF A LOAD.

I work in a hospital and one day the doctor and I were asking a pregnant lady some questions upon admission to the maternity ward. When we asked her who we should call in case of an emergency, she stated "911".

My daughter was going over to the neighbors house to visit but didn't want to miss a call from her boyfriend so she took the cordless phone with her. While at the neighbors she wanted to check back at home to see if her younger brother was okay. My daughter then picked up the neighbors phone and dialed our number. While waiting for someone to answer the phone at home, the phone she brought over with her began to ring. She immediately hung up the neighbors phone and answered our phone. There was no one there. She wanted to know who it was who called so she used our phone to call our house. The line was busy. Getting very frustrated she left the neighbors to go home and see who was on the phone. No one was on the phone. My daughter could not figure out what was going on until someone explained it to her.

The spotlight on the corner buzzes when it is safe to cross the street. I was crossing with an intellectually challenged co-worker of mine, when she asked if I knew what the buzzer was for. I explained that it signals to blind people when the light is red. She responded, appalled, "What on earth are blind people doing driving?"

Come and join us as we celebrate
