APRIL IS DENTAL HEALTH MONTH

WHAT IS TOOTH EROSION???

Acids in the mouth can dissolve tooth surfaces. Teeth will repair themselves using minerals from saliva. But if acid is in the mouth too often, teeth cannot repair themselves and the hard tooth surface (the enamel) becomes thinner. This is called EROSION. Tooth erosion is caused by acidic foods, drinks, eating disorders and vomiting. Teeth can become sensitive to hot and cold and more likely to get cavities.

MORE COMING EVENTS

BC Prevention of Violence Against Women Week is April 17th to April 23rd. The RVSS Stopping the Violence (STV) Outreach and Counselling Programs are marking this event by inviting the community to a mini film festival. On Wednesday, April 20th at 3:30 we will be showing the film **Killing US Softly 4** in the RVSS office in **Valemount.** This film is the most current in a series by Jean Kilbourne and addresses the limitations of gender stereotyping in the media. On Thursday, April 21st in **McBride** we will be showing three films. At 10:00 a.m. **Killing Us Softly 4** will be presented to a McBride audience. At 1:00 at the RVSS office in **McBride** the second film **Lets Talk About It** by Deepa Mehta will be shown. This film profiles four families through interviews of parents conducted by children who have witnessed violence. It features a Canadian multicultural perspective. Then at 3:00 in **McBride** the feature length movie **Odd Girl Out** starring Alexa Vega will be shown. "Backstabbing. Rumor spreading. The silent treatment. Email slurs and vicious websites," describes the social bullying amongst girls featured in this dramatic story. Mothers and daughters are especially invited to share in this topical film. Refreshments and discussions will follow all the film presentations. For more information on the **BC Prevention of Violence Against Women Week Mini Film Festival** call Penny Rivard, STV Outreach Worker or Nancy Taylor, STV Counsellor at RVSS, 250-569-2266 in McBride or 250-566-9107 in Valemount.
