IN LOVING MEMORY

In Loving memory of our beautiful Sheraya Quam who was taken from us 1 year ago, our tears for you have never stopped and I wish every day that we could see your smile and hear your laugh. Love Mom, Dad, Jordan, Dillon, Brady, Calvin and Chloe. As well as your Grandparents, Aunties, Uncles and cousins. You were a very loved little girl Raya. xoxo

December 26, 2000 - May 17, 2013

Missing You Always

You never said I'm leaving
You never said goodbye,
You were gone before we knew it
And only God knows why.
A million times I've cried,
A million times I've cried,
If love alone could have saved you
You never would have died.
In life I loved you dearly
In death I love you still,
In my heart I hold a place
That only you can fill.

PRESENTATION
 Must hear - Presentation by Dr. Brian Manonnous entitled Glacier Change In Western Canada. Where? The Roundhouse Theatre in the McBride Secondary School, May 22, 2014. Dr. Manonnous is an associate professor of Earth Sciences and Canada Research Chair in Glacier Change Geography Program and Natural Resources and Environmental Studies Institute at UNBC. Dr. Manonnous says 'Glaciers are an important natural resource in the mountains of western Canada; they are also sensitive indicators of climate change. The response of glaciers to past and present climate change depends on many factors, many of which are indirectly related to climate. My presentation will discuss our current understanding of past and present glacier change in western Canada. I consider some of the important challenges that must be addressed to better understand the fate of mountain glaciers in a warmer world. Dr. Manonnous has a keen interest in studying the glaciers in the Robson Valley and those in the Dore river Drainage in particular. Dr. Manonnous has just returned from giving a presentation on this subject to a gathering of glaciologists in Vienna Austria. This presentation is sponsored by the McBride and District Chamber of Commerce.
