ICBC is in the middle of a huge and total system change. This is going to affect you all by adding some time to each transaction that we do - It may not be as quick as we have always tried to be. Also, we will be asking for more information than usual - like your birthdate. And, finally, we will be asking you for your signature on a form that allows us to gather your "Private Information" - the birthdate. The new system will probably be wonderful, once we are all used to it - but change is never easy! Thank you so much, in advance, for your patience and your business. -Rosemary

## PROFESSORS ALWAYS KNOW...

Two college seniors had a week of exams coming up. They decided to party instead. Their biggest exam was on Wednesday and they showed up telling the professor that their car had broken down the night before due to a very flat tire and they needed a bit more time to study. The professor told them that they could have another day to study. That evening, both of the boys crammed all night until they were sure that they knew just about everything. Arriving to class the next morning, each boy was told to go to separate classrooms to take the exam. Each shrugged and went to two different parts of the building. As each sat down, they read the first question. "For 5 points, explain the contents of an atom." At this point, they both thought that this was going to be a piece of cake, and answered the question with ease. Then, the test continued. "For 95 points, tell me which tire it was."

## Life's little truths:

Raising teenagers is like nailing Jell-O to a tree. There is always a lot to be thankful for if you take the time to look. For example: I'm sitting here thinking how nice it is that wrinkles don't hurt.  
 One reason to smile is that every seven minutes of every day someone in an aerobics class pulls a hamstring.  
 Car sickness is the feeling you get when the monthly payment is due.

The best way to keep kids at home is to make a pleasant atmosphere and let the air out of their tires.  
 Families are like fudge - mostly sweet, with a few nuts.  
 Today's mighty oak is just yesterday's nut that held its ground.  
 Laughing helps, it's like jogging on the inside.  
 Middle age is when you choose your cereal for the fiber, not the toy.

My mind not only wanders: sometimes it leaves completely. If you can remain calm, you just don't have all the facts.
