McBride Public School News

The School District No. 57 sponsored McBride Community Information Evening is confirmed for Thursday, May 18, 5:6-30pm at the McBride Roundhouse. This meeting has been called by SD57 to update McBride community members on what is happening in our public schools regarding budgeting, curriculum and school organization. Looks like the elementary school may have only 3 divisions next year including 2 classes with 4 grade splits! This will mean job losses at the elementary school and full classes with multiple grades - enormously challenging! At the high school low enrolment means that meeting graduation requirements with teachers in front of students is becoming a significant challenge. Will Distance Learning become the norm in McBride schools? How equitable is public education in small, rural communities compared with that of urban kids in our district? Do we want to see our young people taking courses in front of a computer or a teacher? What about getting into trades, university or other post-secondary schools? Will our high school students be able to get the courses they need in order to get into competitive post-secondary programs? Can the District provide stable, multi-year funding to our small schools so that they can provide programming that meets the needs of our kids? This is your opportunity to hear from and to speak to the decision makers, senior SD57 staff and our elected School Board Trustees. We need healthy, vibrant schools in McBride! How will SD57 help make this a continued reality? If you are a student, parent, grandparent, business owner, teacher, interested resident, please plan to attend on May 18. If you would like to send questions ahead of time, email them to: mcbrideschools@gmail.com.
