McBride and Area Active Living Gaide

The McBride Healthy Communities Committee is a partnership between the Village of McBride and the McBride and District Hospital. This committee was established in 2014 through a grant from Northern Health. The purpose of the committee is to work collaboratively with community residents and stakeholders, to create and live in a community that fosters health and wellness. With that in mind, the McBride Healthy Communities Committee is planning on developing a 'McBride and Area Active Living Guide'. The purpose of the guide will be to promote, in one convenient publication, the many activities, events and groups that make McBride and area a healthy place to live. The intent is to produce a Fall and Winter Guide and a Spring and Summer Guide. The publications will include dates and venues for ongoing community events, contact information for the many groups that support healthy living and activities and will provide residents and visitors with handy information regarding things to do while in McBride. The Fall and Winter Guide will include events and activities that are scheduled to occur in November through April. Although the first printing may be late November or early December, we still want to list your events from that time period. There are so many active groups in McBride and area and we want to help everyone to promote the great work that is done by all. The committee will gather relevant information over the next few weeks. We can only make this a success with your help. If you organize, or are involved in any group that promotes healthy living in McBride and area, then please send an e-mail to Rick Thompson at 250-569-7620 with your group information or to schedule a discussion. Thanks in advance for helping with this initiative. McBride Healthy Communities Committee.
