As the 2018 - 2022 Council term comes to a close I would like to take this opportunity to thank you all, sincerely, for the words of encouragement, feedback, discussions and just general conversations about the Village and everyone's vision for it, I have so enjoyed hearing everyone's thoughts and opinions. It has been my absolute honor and privilege to be a member of the Village Council for the past six years, and in all honesty I will really miss it. We have had some successes and some set-backs, but overall I am really proud of the accomplishments of the past Council and staff. Best of luck to the new Council, as we hand over our meeting schedules, agendas and unfinished projects into your hands. McBride is truly a gem and we are so lucky to live, work and play here. I have so appreciated the opportunity to work on the Village Council of this truly phenomenal Village. -Rosemary

COMING EVENTS

Robson Valley Caregiver Support Group. Where: McBride Library meeting room. When: Thursday, Nov. 3rd from 2-3 pm. For those caring for someone with dementia - spouses, family or friends - a caregiver support group offers the chance to: Exchange information and friendship with others affected by dementia. Access the most current information. Learn and share practical tips for coping with change. Decrease feelings of loneliness and isolation. Express feelings and be reassured that these feelings are normal. Find a sense of hope. Supporting a person with dementia can be incredibly demanding. People in this situation experience a variety of feelings. The demands of the disease can make it difficult to stay in touch with friends and family, and can lead to loneliness and isolation. Come and join us! Contact for more information: 250-569-2018 Susan Umstot, Primary Care Nurse.

Let's get ready to Ride McBride! General Meeting for McBride Big Country Snowmobile Association on Nov. 8, 2022 @ 6:30pm Location: 919 Airport Rd, Private Resident. Join us to get updated information about trails, memberships and events. To have a successful season we need feedback and suggestions to have a great sledding experience in McBride. Everyone is welcome to attend the meeting. **Dome Creek Market** on November 26, 11am to 5pm. No table charge. Interested vendors contact: Laura 778-349-5710 or email latrimble@outlook.com

RE: McBride Community Forest Corp. CP3 Block 65 Development Plan

To recap the information provided by MCFC Manager Patrick Penner who met with LMWUC on October 24th, 2022:

Project development started in 2019. Access to area is 5-7 km Lucille Mtn Road. Partial and clear cuts are proposed, dual purpose with goal of ski areas for sled ski. The timber is dying balsam and spruce bud worm stand with no upcoming timber. The plan is to remove 10,000 m³ on 85 ha. Layout was finished in summer of 2021; old growth deferrals announced that fall resulted in MCFC reviewing proposal. Currently the proposal is being referred to First Nations interests. Plans are to road build in 2023 off Lucille Mtn Road approx. 1km past the Telus access road. MCFC has provided a 120m buffer from Lucille Mtn Creek. The area layout has been marked and ribboned. An information package containing the geo-technical report, preliminary watershed assessment, draft site plan and draft site plan map were mailed in September 2022 to LMWUC members. The preliminary report from the consultant indicates that no further watershed assessment is required. Although the potential impact to the landscape would be far less in the winter season, the work is to take place in the summer, to minimize impact to the sledding community.

Lucille Mountain Water Users' Community (LMWUC) has great concern with respect to the planned logging in the Dore River and Martinson Creek watersheds.

Lucille Mountain Water User's Community was established in 1988 to own and manage a waterline to provide clean, safe water to members. There are thirty-seven licensed users accessing domestic and stock water on our water system for properties on Westlund West Road, Westlund Road, Shovar Road, Pool Road, Museum Road, and Dyke Road. LMWUC was a significant part of the reason people purchased their property and adds significantly to property values.

MCFC started working on the development of this proposal in 2019 yet has had no public consultation with the community and the people affected by the proposed development. The risk of contamination, exposure, and damage to our water source and to our infrastructure is not insignificant. Prioritizing the recreational sledding community, mostly non residents, over our clean, safe, uninterrupted water supply to our members

affecting hundreds of people, prime agricultural land and commercial farming operations, risking their livelihoods and their lives clearly indicates that MCFC values do not align with our watershed dependent community.

The summary conclusion of DWB Consulting Services Ltd. Block 65 Preliminary Watershed Assessment, has a bold disclaimer that MCFC accepts in full stating: *No person or party may utilize or rely on this document . . . We do not represent, warrant, undertake or promise that all project related information has been received, that regulations and standards of practice shall remain constant through the duration of the project, that the use of guidance in the report will lead to any particular outcome or result.* The Conclusion section reads: 5.0 *It is not likely that proposed CP3 Block 65 will result in an increased risk or hazard to the Dore River or Martinson Creek watersheds. . . This report includes only a preliminary assessment.*

This minimal assessment for activities putting a watershed serving a significant residential and agricultural population at risk is not sufficient. The McBride Community Forest Board and its sole shareholder, the McBride Village Council have a responsibility to ensure no harm is done during its operations and to focus on improving the community they serve. LMWUC is not prepared to gamble our water source and we do not believe that MCFC has the right to gamble it either. Damage to watersheds has been the subject of successful litigation, recognizing that the land base has value other than the fibre that can be harvested from it. Unfortunately, monetary compensation does not fix damage already done, and that may take decades to repair.

LMWUC members find the preliminary assessment inadequate, the block layout and site plan inaccurate. MCFC has a history of over cutting, violation of riparian protection zones, mismanagement, failure to honour agreements and to clean up past logging issues. Managers have changed at least four times in the past four years resulting in inconsistent management and oversight of logging operations.

We are asking for the proposed activities to be put on hold until a more in-depth environmental assessment and management plan as well as a monitoring and enforcement plan to ensure compliance with FN and community values is presented to the public for consideration and comment.

Sincerely,

Ron Westlund

Manager, LMWUC
