NEWS RELEASE

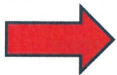

July 11, 2023

Urgent Need for Water Conservation

The Village of McBride and McBride District Volunteer Fire Department urgently request that residents and businesses take immediate measures to conserve water.

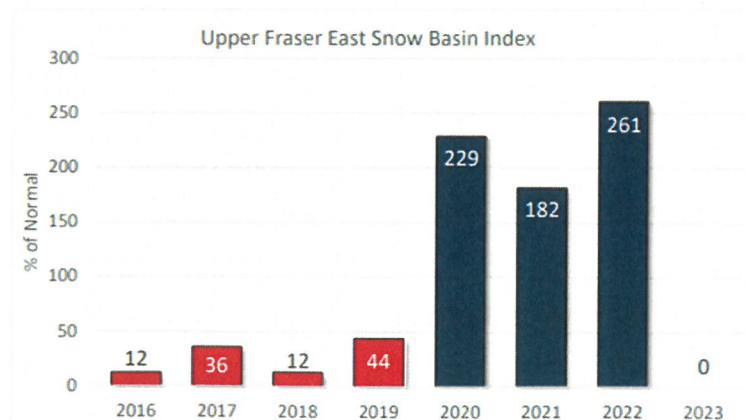

The Province announced on July 6 that the Upper Fraser East Basin, which includes the Robson Valley, is experiencing **Level 4** Drought conditions – <https://www2.gov.bc.ca/gov/content/environment/air-land-water/water/drought-flooding-dikes-dams/drought-information>. At Drought Level 4, conditions are extremely dry and adverse impacts to socio-economic or ecosystem values are likely:

Drought Level Classification		
Level	Impacts	General Response Measures
0	There is sufficient water to meet socio-economic and ecosystem needs	Preparedness
1	Adverse impacts to socio-economic or ecosystem values are rare	Conservation
2	Adverse impacts to socio-economic or ecosystem values are unlikely	Conservation Local water restrictions where appropriate
3	Adverse impacts to socio-economic or ecosystem values are possible	Conservation Local water restrictions likely
4	Adverse impacts to socio-economic or ecosystem values are likely	Conservation and local water restrictions Regulatory action possible
5	Adverse impacts to socio-economic or ecosystem values are almost certain	Conservation and local water restrictions Regulatory action likely Possible emergency response

Additionally, the Province’s Snow Basin Indices for June 15, 2023, shows the snowpack in the Upper Fraser East Basin (including the Robson Valley) at **0%** –

<https://www2.gov.bc.ca/gov/content/environment/air-land-water/water/drought-flooding-dikes-dams/river-forecast-centre/snow-survey-water-supply-bulletin>

On July 6, 2023, the Province issued a news release urging BC residents and businesses to conserve water, noting that while the recent rains have provided relief for some regions in B.C., it has not been enough to overcome the limited rain and precipitation from previous months. The increased flows that are present in some streams and river systems are likely to be short-lived.

The Village of McBride issued a Water Conservation Notice on May 17, 2023, to remind residents of year round sprinkling restrictions as per the Village of McBride Water Bylaw No. 737:

SCHEDULE "C"
WATER USE RESTRICTIONS

1. In all areas served under this Bylaw:
 - a. No Sprinkling is allowed between 12:00 noon and 5:00 pm daily.
2. Watering Regulations:
 - a. Only those properties with a civic address ending in an even number may sprinkle lawn on that property on even numbered days.
 - b. Only those properties with a civic address ending in an odd number, may sprinkle lawn on that property on odd numbered days.

Dominion Creek, McBride's sole source for drinking water and primary source for fire suppression, is experiencing unprecedented low flows and, as a result, the Village and Fire Department urgently request that residents and businesses take measures to further conserve water. Fire Chief David Hruby notes that, **"It is extremely important for the fire department and ultimately the residents of the Fire District that water conservation remains a high priority. There needs to be ample water available when needed - a structure fire won't wait while water supplies regenerate. The water you save today could save your house or life tomorrow."**

To ensure adequate water for fire protection, drinking and other essential uses now and into summer and early fall, residents and businesses in McBride are asked to reduce nonessential water use and enact the following water conservation measures immediately:

- **Not to sprinkle lawns**
- **Not to wash vehicles or boats**
- **Not to wash driveways, sidewalks, fences or building exteriors, except for health and safety reasons**
- **Not to fill swimming pools, hot tubs, ponds, etc.**
- **Limit watering of flowers and gardens to hand watering only (no sprinkling)**
- **Consider use of rain barrels**
